***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/28/08 has been entered.

- Claims 1, 7-10, 14-26, 28 have been cancelled.
- Claims 2-6, 11-13, 27, and 29-35 are pending in the application.

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: Claims 2-6, 11-13, 27, and 29-35 (renumbered as 1-16) are allowable over the prior art of record because none of the prior art whether taken singularly or in combination, especially when these limitations are considered within the specific combination claimed, to teach: a nonvolatile variable resistor comprising a first electrode having a first electrode major dimension and a second electrode having a second electrode major dimension facing each other and formed on a substrate, wherein the first electrode major dimension and the second electrode dimension extend in a direction perpendicular to a surface of the substrate, and in combination with others as claimed in independent claims 2, 27, 30, 35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Campbell et al. (6,891,749) disclose a resistance variable memory element and method for stabilizing the resistance variable memory element.
